

A person wearing a black balaclava and dark clothing is shown from the chest up, holding a rifle. The person is positioned in the foreground on the left side of the frame. In the background, a large, two-story house with a gabled roof and a bay window is visible. The house has a light-colored exterior and a dark roof. The scene is set against a dark, overcast sky with some trees in the distance. The overall tone is serious and focused on home defense.

PROTECTING YOUR FAMILY. YOUR HOME. YOURSELF.

We're conducting a Home Defense Training session in your neighborhood.

What is Home Defense Training?

If you've received this notice, it's because your neighbor is working with 88 Tactical to learn how to more effectively protect his or her home in a crisis situation.

Through our Home Defense Level 1 course, world-class trainers from 88 Tactical will work with them in their home, using a home assessment, role-playing, and helpful instruction to educate them on how to make their space safer and defend their family should a home invasion, fire, tornado or other disaster occur. It's a one-day training session with long-term benefits.

Please be aware that an 88 Tactical Team will be conducting this training session at your neighbor's house. Feel free to give me a call at **402.933.7171** with any questions, or visit **88tactical.com** for more information.

- Shea Degan, founder

Topics covered in our Defense Level 1 course include:

- ★ **Family-centric instruction and role-playing**
- ★ **Standard home assessment:** lights, locks, floor plans and entrance/egress
- ★ **Creation of “safe zones” for your loved ones within the living space**
- ★ **Emergency response training**
- ★ **Children and their role in a home defense plan**
- ★ **Networking among neighbors**
- ★ **Firearms safety and storage – and much more**
