ABOUT PRECISION RIFLE

LAW ENFORCEMENT/MILITARY PRECISION RIFLE

88 Tactical's Law Enforcement Sniper and Designated Defensive Marksman courses are designed to train LE/MIL personnel in the art of long distance precision shooting. This highly effective training gives law enforcement agencies the added tools to deal with a constantly changing high-threat environment.

TRAINING LEVELS

LAW ENFORCEMENT SNIPER

88 Tactical's Law Enforcement Sniper course is designed to train specially selected individuals from various law enforcement agencies to properly utilize high power precision rifles. We train them in the areas of tactical precision shooting and observation skills to give their departments the added tools to deal with a constantly changing high-threat environment.

This 4-day course covers the following topics in both classroom coverage and practical applications on the range.

- Hasty hide and vehicle hide construction
- 308 ballistics / Ballistic calculators / DOPE Cards
- In-depth fundamentals (Adjustments, Steady position, Sights, Breath, Trigger) dry fire drills
- Equipment set up and troubleshooting equipment
- Chronograph rifles, range zeros, and grouping exercises
- Gather data for 100yd to 400yd shots (range dependent)
- Angle shooting class work
- Reticle range estimation and exercise
- Target Detection Exercise
- Observation and Report Exercise
- Shooting uncomfortable positions and various platforms
- Precise 100 yards and in shooting into vehicles (range dependent)

- LEO DDM Qualification course
- FBI Qualification

EQUIPMENT LIST

- High power rifle with scope and bipod
- 400 rounds of match grade ammunition
- Scope Manual (if available)
- Eye/ear protection

- Duty gear/deployment gear
- Shooting mat
- Sand sock

LAW ENFORCEMENT DESIGNATED DEFENSIVE MARKSMAN

88 Tactical's Law Enforcement Designated Defensive Marksman course is designed to train patrol officers from various law enforcement agencies in the proper use and employment of magnified optics mounted on either patrol rifles or other various high powered rifles. Officers are trained to engage targets between 100 to 300 yards with first round hits while accounting for various environmental conditions.

This 1-day course covers the following topics in both classroom coverage and practical applications on the range.

- Scope types, functions, and selection for law enforcement use
- Proper mounting of magnified optics
- Use of turrets and reticles for precision shooting
- Basic Ballistics
- Adjusting for wind
- Shooter fundamentals
- Rifle zeroing and data collection at various ranges
- Vehicle deployment drills
- DDM qualification course from 100 to 300 yards

EQUIPMENT LIST

- Notebook
- Rifle with magnified optic
- 100 rounds of duty ammunition
- Shooting mat (optional)
- Sand sock (optional)
